ZAMI ERGO CHAIR

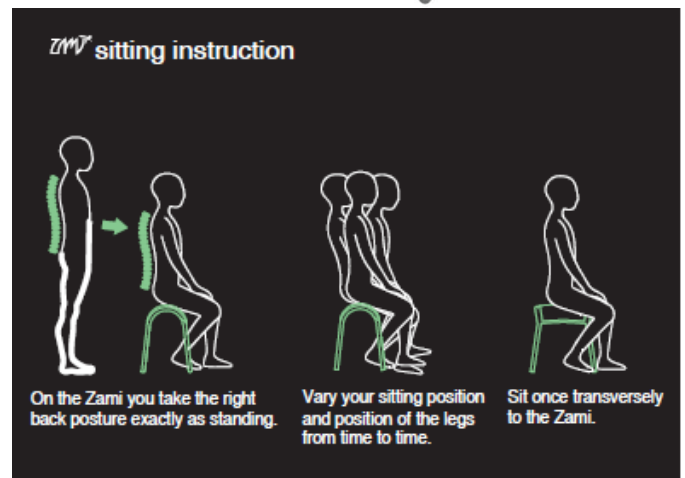

Protected / patented model

ZAMI
THE SITTING SOLUTION

Smart ergonomic stool against back problems

- Due to the double curved (double parabolic) seat shape, you automatically stretch your back and always vary sitting posture. This results in a better general body posture.
- The ZAMI makes you aware of your attitude. You correct immediately a bad attitude.
- Spine maintains its natural protective S-curve
- Experience less pressure on the lower back, improved breathing, freedom of movement of the head and neck and increase of back and trunk muscles.
- You can easily alternate sitting postures that be protective of your back: with your knees down or in saddle seat.
- The ZAMI gives your legs all the space to different to assume sitting postures.
- The frame is made of powder-coated aluminum.
- The seat is made of strong pressed beech wood with a filling of high-quality Polyurethan foam RG 65/90 and is covered with real leather (aniline dyed).
- Slim design and a graceful appearance.

- * Double curvature (double parabolic): perfect support for sitting bones.
- * Leather upholstery (aniline dyed).
- * Active sitting, helps to train trunk, back, and leg muscles.
- * Spine maintains its natural protective s-curve.
