

TILHULKK

Registered patent

Professional lifting aid for countertop installations

Meet the TilHulkk – your solution for stress-free countertop installations.

This patented cart is compact and easy to transport, effortlessly lifting up to 500 kg of kitchen countertops such as natural stone or composite.

With puncture-proof and non-marking tires, it ensures floor protection. Forget traditional heavy lifting; work faster, safer and more efficiently with the TilHulkk.

This makes installing countertops and table tops a breeze for everyone involved.

The lifting aid and assembly lift is suitable for transporting any type of heavy natural stone, sheet material, top, glass, doors etc. Lifts tops of max. 500 kg up to 66 cm from the floor.

- Specially designed for the kitchen industry and can also be used by other installers.
- Also suitable for the garden industry for installing granite and concrete tops for garden tables.
- Fits easily in the van.
- Narrow and manoeuvrable, making it easy to roll from the work van to the kitchen.
- Unique lifting element that allows you to lift the top up to 66 cm high from the floor.
- Suitable for top thicknesses of 2 to 10 cm.

Wheels:

- Puncture-proof wheels Ø260x85mm.
- Plastic PP rim with ball bearings, axle Ø 25mm.
- Rim including fixed sealing cap.
- Ultra-quiet non-marking solid PU tires (foamed Polyurethane).
